

Alarm Tech Central has an exciting and new alternative to Manufactures GSM Monitoring!

Introducing the MiNi01- 4G

An Interactive Cellular Alarm Communicator for 3G and 4G Networks

GSM and Monitoring **\$5.00 / Month**

For a limited time, we are offering both GSM and Monitoring on the 4G networks for the unbelievable low price of \$5.00 per Month. Our interactive communicator is great for the 2G sunset clause as well as a fast takeover for accounts. The Unit itself is just \$69.99 + shipping and handling
